

Level One Design Services Core

This course is designed to develop competencies in areas of the fashion technology and design industry. This course includes essential basic skills for working in design Services, leadership and organizational skills, basic principles of design, textile characteristics and care, employability skills, relationship between human factors and interior design, the safe use of tools and equipment, and the selection of appropriate materials.

This is the first course in the academy.

Level Two Principles of Fashion Technology and Design Services

This course is designed to further develop competencies in the area of Fashion Technology and Design Services. This course includes learning about employment opportunities in fashion technology and design services, the basic skills essential to working in this industry, employability skills, the elements and principles of design, the terminology of the fashion industry, garment construction skills, sales techniques, and entrepreneurship.

Level 3 Pattern Design Techniques

This course is designed to further develop competencies in the area of Fashion Technology and Design Services; this course includes researching the effects of history and culture on design, sketching and freehand drawing, the use of technology in the fashion industry, recognition of clothing needs for special populations, and the creation of an original pattern.

Level 4 Fashion Design Specialist

This course is designed to further develop competencies in the area of Fashion Technology and Design Services. This course focuses on five specialty areas of Fashion Technology and Design Services: Window Display, Fashion Design Assistant, Tailor's Assistant, Personal Shopper, and Stylist. Students will select one of these specialty areas and will be expected to follow the performance standards for that area. Also included is an opportunity for job shadowing. Students will be expected to finalize and submit a portfolio.

Projects we have done this year!
